

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole Group is an energetic, global company offering comprehensive sustainability solutions and services. With offices spanning all six continents, we strive to create a sustainable society and economy that positively impacts our climate, ecosystems and communities. With our solutions we inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Senior Consultant Climate Policy and Finance (80-100%) based in Jakarta or Bangkok

South Pole Group's (SPG) climate experts advise corporations, governments, development banks and cities on the design, implementation and monitoring of policies, programs, projects and green financing solutions, as well as the use of existing and upcoming market-based instruments, to tackle the challenge of climate change mitigation. SPG works with a large number of prestigious public sector clients and you, as part of the Consultancy team, will focus on the delivery of high quality consultancy reports on climate policy and finance to them. In addition, the management of small project teams will be in your hands.

Tasks and responsibilities

- Design, plan and implement public advisory projects, including financial and technical oversight
- Manage small project teams for specific advisory projects, including SPG consultants in all six continents and external partners, ensuring high quality outputs, timeliness and cost efficiency of delivery
- Support the Key Account Management team with business development activities in the public sector in Southeast Asia, with a specific focus on climate policy, climate finance and carbon markets
- Topics of engagement may include: Energy & Climate Finance, Sustainable Cities, REDD+, Climate Policy and Carbon Market Instruments, implementation and financing of Nationally Determined Contributions (NDCs) under the Paris Agreement

Your profile

- A Master degree, ideally in Environmental Sciences, Engineering, Public Policy, Finance, Economics or related disciplines
- At least 3-5 years of relevant work experience in high quality consultancy for public sector clients, particularly in sustainable development and climate change advisory
- Demonstrable track record developing climate change mitigation projects, programs or instruments across sectors and technologies, especially in Southeast Asian countries
- Experience in managing small teams, ideally within an international and multicultural context
- Proven know-how and network in climate policy and sustainable development, especially in Southeast Asia
- Existing network with governments, international finance institutions (IFIs), development agencies and other public or private donors/stakeholders, with a particular focus on Southeast Asia
- Commercial skills and good business sense, to be able to identify and seize opportunities in a challenging and competitive market environment would be an asset

- Excellent oral and written command of English is essential and professional proficiency in an Asian language, Spanish, French, German or other languages is desirable
- Advanced skills in MS Word, Excel and PowerPoint is essential and proficiency in further data or modelling software is of advantage
- Indonesian/Thai nationality or holder of a valid work permit is a must

We offer

- Excellent team spirit
- Be part of a growing and multicultural company with a real purpose
- Work autonomously as well as within a large and international team of experts
- Attractive remuneration package and a clear career development potential as part of the Consultancy team

Please apply
