

## We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. With offices spanning all six continents, we strive to create a sustainable society and economy that positively impacts our climate, ecosystems and communities. With our solutions we inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

### **Senior Consultant Green Finance and Climate Policy Indonesia** based in Jakarta (100%)

As part of the Consultancy team, you will focus on the successful and efficient implementation of our projects for Indonesian and international clients in the sustainability field and lead the development of proposals/business development activities for South Pole. You should have a general background and strong networks in public sector consulting, ideally with focus on Green Finance, Climate Policy and Renewable Energy topics. The ideal candidate could also have some knowledge of global and national Climate Policy issues, energy efficiency and sustainable city initiatives.

You'll be expected to work independently and to execute tasks related to the development and delivery of accurate, timely, and high quality products and services. You will likely work on multiple projects, interact with all levels of staff, and participate in client/partner meetings and communications.

#### Tasks and responsibilities

- Planning, coordination and management of public sector consultancy mandates related to green finance and energy transformation topics
- Delivering high-quality proposals, consultancy reports and other deliverables (e.g. presentations, blogs) in English
- Where required, provide technical leadership in the implementation of advisory projects and technical reviews of projects managed by other colleagues
- Design of project work plans, schedules, budgets and delivery of financial and technical status reports
- Financial and administrative oversight of advisory projects
- Leading of assignment-specific, international teams composed of internal and external experts and organisations
- Liaise with clients on specific consultancy mandates
- Supporting the acquisition of new mandates through networking and the preparation of proposals
- Participation in client facing events and meetings, to speak about relevant topics and represent South Pole and its services
- Development of concept and methodologies for new consulting opportunities within the topic of green/climate finance, renewable energy and sustainable development
- Support the development of South Pole's strategy and service offering in the field of Green Finance and Renewable Energy

### Your profile

- A university degree, ideally at a Masters level or higher, in Finance, Environmental Engineering, Environmental Science or a related discipline
- At least 5 years of relevant work experience, ideally with consultancy with the public sector in the area of climate change and sustainable development
- Sound understanding of Green finance, Renewable Energy and Climate Policy both nationally and internationally
- Awareness of current national and international policy developments with regard to climate change and sustainable development
- Proven network with government, development finance institutions, development agencies, and other public or private donors/stakeholders, particularly in Indonesia and ideally in Southeast Asia
- Excellent oral and written command of English and Indonesian; other international languages are of advantage
- Commercial skills and good business sense to be able to identify and seize opportunities in a challenging and competitive market environment
- Extensive coordination, project management, proposal writing and presentation skills
- Diligent, reliable and independent approach to work and ability to act as a team leader in a multicultural environment
- Advantageous if you have experience working with and implementing activities with large multilateral funding/granting mechanisms/platforms

### We offer

- Excellent team spirit
- Be part of a growing and multicultural company
- Work experience in a leading sustainability consultancy firm with the opportunity to work with a wide range of experts from a broad range of sustainability fields
- Work autonomously as well as within a large and international team

### Please apply

If you are interested in joining a young and international team looking to make a difference to the world we would be happy to hear from you! Please send your application in English directly through our [website](#). If you have any questions regarding this vacancy, please contact Ms. Tiara Anggraeni on +62 21 7207567 or on [jobs@southpole.com](mailto:jobs@southpole.com).
