

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. South Pole acts today 'for a better tomorrow'. With offices spanning all six continents, we accelerate the transition to a climate-smart society. Our vision is "Climate Action for All": We inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Project Manager - Forestry and Land Use (100%) based in Jakarta or Bangkok

As a Project Manager in the Forestry and Land Use team, you will be responsible for delivering all milestones proposed for land use projects, and collaborate when necessary with other members of the team. You will oversee projects, making sure that the team receives the support they need to carry out the tasks they are responsible for. If you have experience working with local communities and private owners in the agriculture, forest and land use sectors, then we are looking for you!

Tasks and responsibilities

- Support project managers in proposal/deliverable preparation and completion of project development tasks
- When required, develop and coordinate site visit plans
- Implementing and managing emission reduction projects
- Maintain relationships with internal and external stakeholders
- Provide technical and development support by project sourcing
- Be responsible for project management by keeping the team informed about the project's progression, responsible for ensuring the quality of deliverables and that the budget is held
- Undertake research into possible partners and collaborators for upcoming opportunities
- Participate in formal and informal networking opportunities as requested
- When needed, represent South Pole during meetings

Your profile

- University Degree, ideally in Forestry, Agriculture, Natural Resource Management, Sustainability or Climate Change and Carbon Mitigation related fields
- Minimum 3 years of work experience in Forestry, Sustainability Consulting, Climate Change Mitigation/Adaptation or related fields
- Familiarity with carbon standards like T-VER, CDM, VERRA GS4GG, ICONTEC
- Have excellent communication skills, especially verbal and written skills in English and the local language
- Ability to create high quality written documents (proposals and deliverables) in English
- Ability to manage targets and priorities and develop own goals
- National, or holder of a valid work visa in the country of residence (Indonesia or Thailand)

We offer

- Work in a growing global profit for purpose company with a real commitment to sustainability and fighting climate change
- Excellent team spirit, work within a large and international team of sustainability passionate professionals
- The opportunity to work with professional experts all around the world

Please apply
