

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. South Pole acts today 'for a better tomorrow'. With offices all around the globe, we accelerate the transition to a climate-smart society. Our vision is "Climate Action for All": We inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Senior Consultant Corporate Sustainability (100%) based in London, Mexico or Stockholm

As part of the Corporate Risks and Opportunities team within the Consultancy & Services unit, you will focus on the delivery of high quality consultancy advice on climate change mitigation solutions to the corporate sector, and be responsible for the management of small project teams. As a Senior Consultant, you will also lead the development of proposals and participate in business development activities and new service creation. This is a fast growing and dynamic business area with global market potential, are you ready for the challenge?

Tasks and responsibilities

- Plan consulting mandates with necessary know-how and skill set to ensure the most efficient and highest quality implementation
- Develop proposals with the responsible key account managers and senior consulting staff
- Interact with and build relationships with clients and manage the delivery of corporate consulting mandates on corporate climate risks and opportunities
- Support senior consulting staff and our key account management team in business development in the corporate sector
- Support other senior consulting staff and the Key Account Management team to further develop thought leadership, services and marketing materials, to further develop our corporate offerings
- Interact closely with our international internal team of consultants
- Topics of engagement may include: GHG accounting and disclosure, climate change mitigation, Science Based Targets (SBTs), risk assessment and TCFD, materiality assessment, energy efficiency, Life Cycle Analysis (LCA), Sustainable Development Goals, renewable energy strategy, etc.

Your profile

- A university degree, ideally in Environmental Sciences, Environmental Engineering, Energy Engineering, Economics or sustainability-related disciplines
- At least 6-10 years of relevant work experience in the corporate sector at least partly in corporate consulting
- Sound understanding of environmental sustainability challenges in multinational companies
- Specific consultancy experience in:
 - Sustainability and corporate risks
 - Consultancy for corporate clients, particularly in topics related to GHG accounting, reduction, mitigation and disclosure, energy efficiency and renewable energy strategy
 - Developing climate change solutions

- Experienced project manager in a multi-stakeholder and multi-geographies/international context
- Commercial skills and good business sense to be able to identify and seize opportunities in a challenging and competitive market environment
- Practical experience in sustainability strategy, GHG management, adaptation, change management is desirable
- Proven knowledge and network in the relevant fields
- Native oral and written level of English is a must
- Professional proficiency in Spanish, German and/or French is of advantage
- National, or holder of a valid required work visa in host country

We offer

- Work in a growing global profit for purpose company with a real commitment to sustainability and fighting climate change
- Excellent team spirit, work within a large and international team of sustainability passionate professionals
- The opportunity to work with a culturally diverse team based around the world
