

## We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. South Pole acts today 'for a better tomorrow'. With offices all around the globe, we accelerate the transition to a climate-smart society. Our vision is "Climate Action for All": We inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

## Consultant Climate Policy and Finance (100%) based in Jakarta or Bangkok

As a Consultant, you will have an important role in maintaining the success and implementation of South Pole's advisory mandates and on the delivery of high quality consultancy reports as well as other materials to the clients. This role will focus on project management of advisory mandates on climate change and sustainability solutions, including being a project manager and the point of contact of the projects and proposals that are responsible for. Working independently, you execute tasks that are related to the development and delivery of accurate, timely and high quality products and services. Topic of engagement may include Climate Finance, Sustainable Cities, Carbon Market Instruments, as well as the development and implementation and financing of Climate Policies.

### Tasks and responsibilities

- Planning, coordinating and managing consultancy mandates for public sector clients related to Climate Policy and Climate Finance topics
- Delivering high-quality proposals, consultancy reports and other deliverables (e.g. presentations, blogs, workshop materials) in English and where applicable a local language (Thai or Bahasa Indonesia) as required clients
- Manage small internal project teams for specific consultancy projects
- Design project work plans, schedules, budgets and delivery of financial and technical status reports
- Financial and administrative oversight of advisory mandates
- Liaise with partners and clients on specific consultancy mandates
- Support business development activities of senior staff in the region

### Your profile

- Minimum Bachelor's degree, ideally in Environmental Sciences, Engineering, Finance, Economics, Political Sciences or related disciplines, a Master's degree is an asset.
- At least 2 years of relevant work experience related to carbon markets, climate policy, and/or climate finance
- Experience working in small teams, ideally within an international and multicultural context
- Demonstrable interest in working on climate change mitigation projects, programs or instruments across sectors and technologies, especially in Southeast Asian countries
- Excellent oral and written command of the relevant local language (Bahasa Indonesia or Thai) and English is essential
- National, or holder of a valid work visa in Indonesia

### We offer

- Be part of a growing and multicultural company with a real purpose
- Excellent team spirit working with dedicated and enthusiastic people
- The opportunity to use your skills, experience and enthusiasm to grow our newly established Funds & Platforms unit
- A clear career development potential
