

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. South Pole acts today 'for a better tomorrow'. With offices all around the globe, we accelerate the transition to a climate-smart society. Our vision is "Climate Action for All": We inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Senior Full Stack Developer (80%-100%) based in Berlin, Germany

At South Pole, we believe that climate action is more than the title of a PowerPoint slide. That's why we work both on the field - developing emission reduction projects, as well as in the office - developing tools that empower organizations, governments and individuals alike to fight climate change. We are looking for a Senior Full Stack Web Developer who is able to thrive in a fast paced environment where change is constant. In this role, you will work on a new application for trading carbon emissions certificates, as well as on its integration within our existing technology landscape. Our development team uses Agile methodologies where all roles collaborate with one another to complete each unit of work – the story. Are you ready for this challenge?

Tasks and responsibilities

- Design, implement, and unit test both frontend and backend application code
- Work collaboratively with PMs and UX designers to deliver against the agreed roadmap
- Act as a technical advisor and think creatively of solutions to problems arising in practice

Your profile

- Bachelor's degree in Computer Science or related field, or equivalent practical experience
- 5-7 years of web development experience
- Proficient with React and Node JS
- Knowledge of common architectural patterns and development best practices
- Excellent data modelling skills
- Experience with API design for SaaS solutions
- Experience with building dependable payment solutions
- Self-starter and independent problem-solver
- Values simplicity and thinks creatively to deliver pragmatic solutions
- Solid communication skills; demonstrated ability to explain complex technical issues to both technical and non-technical audiences

We offer

- Excellent team spirit within the world's leading independent sustainability company
- Be part of a growing and multicultural company

- Work autonomously as well as within a large and international team of passionate sustainability professionals

Please apply

If you are interested in joining a young and international team looking to make a difference to the world we would be happy to hear from you! Please send your cover letter and CV directly through our [website](#). If you have any questions regarding this vacancy, please contact us on jobs@southpole.com.
