Tasks and responsibilities

- Design, implement and launch a new line of forestry products
- Develop and maintain collaborations with external partners
- Work collaboratively with internal stakeholders, such as Project Managers, Software Developers, Marketing and Sales team to bring new products to life

Your profile

- 3-5 years work experience in the environmental sector, ideally in product development
- Experience with the full carbon project cycle preferred
- Strong business acumen, particularly in regards to environmental markets and our client-base
- Familiarity with the European AFOLU project sector required, ideally with a network of your own
- Passion for the environment and a drive to address climate change
- Advanced oral and written English, other European languages a plus
- National or holder of a valid work permit

We offer

- Work in a growing global profit for purpose company with a real commitment to sustainability and fighting climate change
- Excellent team spirit, work within a large and international team of sustainability passionate professionals
- The opportunity to work with professional experts all around the world
