

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. South Pole acts today 'for a better tomorrow'. With offices all around the globe, we accelerate the transition to a climate-smart society. Our vision is "Climate Action for All": We inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Lead Nature Based Solutions (100%) based in London, Amsterdam, Jakarta, Mexico or Bogota

South Pole works with a large number of prestigious public and private sector organisations focused on climate action. We work with our clients to identify and implement policies and tools to catalyse climate action, supporting wider sustainable development goals. One key aspect of our work that will be at the top of the climate agenda in 2020 is nature based solutions (NBS).

In this role you will focus on the successful and efficient implementation of our NBS projects for international clients. As the company's lead expert on nature based solutions, you will lead the development of proposals and participate in business development activities for South Pole on international initiatives and mandates focused on forests and land use, including REDD+. If you are also not shy of working independently on the development and delivery of accurate, timely, and high quality products and services, then this might be the new challenge you are looking for.

Tasks and responsibilities

- Planning, coordination and management of consultancy mandates for clients related to Nature Based Solutions
- Delivering high-quality proposals, consultancy reports and other deliverables (e.g. presentations, blogs, workshop materials) in English as required by the client
- Management of internal project teams for specific consultancy projects
- Design of project work plans, schedules, budgets and delivery of financial and technical status reports
- Financial and administrative oversight of advisory mandates
- Liaise with partners and clients on specific consultancy mandates
- Support business development activities on Nature Based Solutions

Your profile

- Minimum Bachelor's degree, ideally in Forestry, Biology, Environmental Sciences, Engineering, Finance, Economics. Political Sciences or related disciplines, a Master's degree is an asset
- At least 6 years of relevant work experience consulting on Nature Based Solutions related issues
- Excellent oral and written command of English is essential
- Experience working in small teams, ideally within an international and multicultural context

We offer

- Excellent team spirit with fun and supportive colleagues
- Be part of a dynamic, growing and multicultural company
- Work autonomously as well as within an international team

Please apply

If you are interested in joining a young and international team looking to make a difference to the world we would be happy to hear from you!
