

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. South Pole acts today 'for a better tomorrow'. With offices all around the globe, we accelerate the transition to a climate-smart society. Our vision is "Climate Action for All": We inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Junior Consultant Corporate sustainability (100%) based in New York City, USA

As part of the Consultancy & Services team, you will support the delivery of high quality consultancy advice on sustainability solutions to the corporate sectors. As a Junior Consultant, you will also support in the development of proposals. This is a fast growing and dynamic business area with global market potential. If you are ready to take on the challenge, then we are looking for you!

Tasks and responsibilities

- Support the implementation of mandates for international clients, with a particular focus on North America
- Interact with and build relationships with clients; manage the delivery of corporate consulting mandates on sustainability advisory
- Conduct independent research on sustainability-related topics
- Analyse qualitative and quantitative data, in particular to conduct GHG footprints; summarise complex topics and findings for non-technical audiences
- Support the development of proposals with the responsible US-based key account managers and senior consulting staff where required
- Topics of engagement may include: GHG accounting and disclosure, climate change mitigation, Science Based Targets (SBTs), risk assessment and TCFD, materiality assessment, energy efficiency, Life Cycle Analysis (LCA) and Sustainable Development Goals (SDGs)

Your profile

- University degree, ideally in Environmental Sciences, Environmental Engineering, Energy Engineering, Economics, or sustainability-related disciplines
- At least 2 years of relevant work experience in the corporate sector at least partly in corporate consulting
- Ability to conduct research tasks, analyse, and summarise data to non-technical audiences
- Ability to create high quality written documents (proposals and deliverables) in English with limited guidance
- Strong analytical skills
- Excellent interpersonal and communication skills;
- Advanced skills in MS Word, Excel and PowerPoint
- Diligent, reliable, and proactive and self-sufficient but collaborative approach to work
- Intellectual curiosity, eager to learn, and passionate about environmental sustainability and climate change issues

We offer

- Excellent team spirit within the world's leading independent sustainability company
- Be part of a growing and multicultural company
- The opportunity to work with a culturally diverse team based around the world

Please apply
