# EASILY UNDERSTAND THE CLIMATE IMPACT OF YOUR INVESTMENTS ...

## OUR EXPERTISE - YOUR SUCCESS.

Tailor-made reporting solutions, customized investment controlling reports, comprehensive portfolio audits, efficient benchmarking and peer group comparison are all just a click away.

yourSRI's 'Carbon Footprint Analysis' tool is the easiest and most cost efficient way for you to independently measure, disclose, and manage the carbon intensity and climate change risks of your own and your clients' investments. Asset Managers and asset owners worldwide use our trusted online-platform, accredited service provider of the PRI Montréal Pledge, to evaluate their climate change risk exposure.

- 🍷 Meet national and international environmental reporting and disclosure requirements
- 🍷 Measure and publicly disclose your carbon footprint to your stakeholders
- 🍷 Extend your mainstream financial reporting to improve your understanding of portfolio risks and opportunities related to climate change

We partner with South Pole Group to provide you the most complete information on corporate emissions worldwide. The database covers all listed companies, and data is available for private equity, infrastructure and sovereigns as well.

## BRAND YOUR PORTAL - EASY CUSTOMIZATION.
