

We are hiring

Would you like to be part of our dynamic, global, and growing team? South Pole Group is an energetic, global company offering comprehensive sustainability solutions and services. With offices spanning all six continents, we strive to create a sustainable society and economy that positively impacts our climate, ecosystems and communities. With our solutions we inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Expert Sustainable Finance (100%) based in London or Stockholm

Sustainability challenges are rising on the agenda of political and business leaders worldwide. Topics such as climate change, forestry and land-use, water and energy need to be managed very carefully in order to mitigate risks and grasp opportunities. Complex sustainability problems require coordination between different local actors, as well as along the value chain of our clients. As a globally leading sustainability solution provider, South Pole Group (SPG) enables clients to understand their impacts and risks, formulate succeeding strategies and take action on the ground.

With a renowned track record for implementation of GHG mitigation activities in more than 25 countries and extensive experience with consultancy services, South Pole Group is well positioned to contribute to the carbon markets of tomorrow. Within this context we are currently looking for a Sustainable Finance Expert to join the team.

Tasks and responsibilities

Leading teams of dedicated experts

- Managing a portfolio of consulting & project engagements on investments and climate change
- Plan projects and assign project teams with necessary know-how and skill set to ensure the most efficient and highest quality implementation of our mandates
- Supervise and guide the project teams in the implementation of our mandates

Supporting our key account management team in business development

- Shape proposals with the responsible key account managers and customers
- Participate in client meetings to provide product ideas and services that match their needs and our capabilities
- Contribute with technical input to product development processes and discussions

Help to shape SPG's strategy in the field of Sustainable Finance

- Enrich and enlarge SPG's service offering, particularly for financial sector clients
- Ensure information exchange and know-how transfer, mentor and train our consultants
- Development of concepts and methodologies for new corporate consulting opportunities within the topic of investment and climate change

Your profile

- A university degree, ideally in Economics, Finance, Sustainable Finance or related disciplines
- At least 7 years of relevant work experience in project management and business development with regard to consulting in sustainable finance and investments
- Experience in team management, especially in international context
- Diligent, reliable and independent approach to work and ability to act as a team leader in a multicultural environment
- Commercial skills and good business sense to be able to identify and seize opportunities in a challenging and competitive market environment
- Sound understanding of sustainability challenges in finance and investments, especially with climate impact and risk assessments for investments
- Specific experience in understanding and working with different asset types
- Awareness of current policy developments in regards to divesting and sustainable investment disclosure regulations
- Proven knowledge and network in the relevant fields
- Excellent oral and written command of English. Excellent German and French language skills are a strong advantage
- Extensive coordination, project management, proposal writing and presentation skills

We offer

- Excellent team spirit
- Be part of a growing and multi-cultural company
- Work autonomously as well as within a large and international team
