

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. South Pole acts today 'for a better tomorrow'. With offices all around the globe, we accelerate the transition to a climate-smart society. Our vision is "Climate Action for All": We inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Project Manager - Forestry and Land Use (100%) based in Cape Town, South Africa

As the Project Manager - Forestry and Land Use, your responsibilities include land use project delivery (e.g. REDD+, ARR, ALM); design and development of carbon projects for the AFOLU sector. You will be working with local communities and private owners and MRV systems and develop carbon carbon estimations and deliver high quality products. You will also focus on assisting auditing processes for the validation and verification of greenhouse gas reductions across different levels of the business.

Tasks and responsibilities

- Responsible for the entire implementation and management of carbon reduction projects under different standards (e.g. T-VER, CDM, VERRA, GS4GG)
- Conduct and plan site visits at project locations whenever needed
- Be the key point of contact for numerous stakeholders, both internally and externally
- Provide technical and business development support with project sourcing according to the required standard of South Pole and our clients
- Work with project owners while complying with pre-set internal requirements such as providing project status updates and budget controlling
- Represent and participate in (in)formal networking opportunities to represent South Pole

Your profile

- University Degree in forestry, agriculture, natural resource management, sustainability, climate change or carbon mitigation related fields
- Three or more years of work experience in forestry, sustainability consulting, climate change mitigation/adaptation or related fields
- Ability to manage targets, priorities, and develop goals
- Have excellent communication skills, especially verbal and written
- Excellent oral and written command of English, knowledge of any other languages is considered a plus
- Ability to create high quality written documents such as proposals and deliverables in English

We offer

- Work in a growing global profit for purpose company with a real commitment to sustainability and fighting climate change
- Excellent team spirit, work within a large and international team of sustainability passionate professionals
- The opportunity to work with professional experts all around the world

Please apply

If you are interested in joining a young and international team looking to make a difference to the world we would be happy to hear from you!
